

Welcome to Cebu

In this little seaside town you can enjoy a vast array of marine life as well as exploring the surrounding area. Of course a visit to Moalboal is not complete without exploring Pescador Island, watching the turtles laze around and be in awe of the millions of sardines just off Panagsama Beach. However, Moalboal has more to offer, Moalboal has it all!

Combine beautiful dives, relaxing beach moments, colorful market visits and adventurous waterfall canyoneering. Magic Island offers several trips and activities to do during your stay at the resort. A sneak peek of what our beautiful island has to offer: Waterfalls, adventure, local markets, whale sharks and more!

To give you a hassle free and convenient experience, we arrange daytrip packages for you to choose from:

Kawasan Waterfalls

Do you want to enjoy some of the beautiful nature, forests, wild flowers and small animals that Cebu has to offer? Then this is the right trip for you! Take a 20 minute walk through a natural grown forest with plenty of beautiful local plants, flowers and native animals. This walk will lead you to the 1st level of the waterfall. Dip into the lake and enjoy a natural massage from the waterfall as you relax on the bamboo raft. Hike from level 1 to 2 or 3 and enjoy the great views and beautiful creatures.

Our Magic Staff will take care of a delicious lunch and some soft drinks for you to enjoy.

Kawasan Adventure Tour

Prepare for a wild and wet adventure by participating in our Canyoneering tour – traverse through the lush forest and winding canyons with an experienced guide paving the way. Take that giant leap into a wide basin of the cascading waters of the Kawasan falls.

Climb up to the 6th level of the Kawasan Falls and work your way down by jumping down several small falls (max. 3.5m) and swimming in the refreshing river until you get to level 3. From level 3 back down to 1 you hike down through nature's miracles in combination with a great natural massage from the waterfall as you relax on the bamboo raft.

Back at level 1, a delicious BBQ lunch and cool drinks will be waiting for you.

Whale Shark diving and snorkelling

Observe these gentle giants both whilst diving and/or snorkeling! Leave the resort at around 5am and reach Oslob in a car ride of 1.5 hours to the South-East side of Cebu. First enjoy an early morning breakfast on the beach. After breakfast it's time to gear up. Your gear and Magic divemaster will be waiting for you, ready to introduce you to the biggest fish in the sea. The dive is +/- 60 minutes and is a shallow shore dive (around 6 meters / 20 ft).

After the dive, you head back to the beach house for some refreshments.

Once you're ready, we advise you to do a snorkel so you can experience 2 different interactions with these creatures – one from below and one on the same level as them. After your 30-40 minute snorkel, our staff will prepare a BBQ lunch at the beach house for you. Head back to resort and arrive at around 2:00/3:00pm to enjoy the rest of your afternoon.

After this magical experience, you can choose to go back to the resort to enjoy a lovely cocktail and relax by the pool, or you can continue on to do the Kawasan waterfalls.

Osmena Peak

Hike up to the highest point of Cebu, an incredible 1013 meters above sea level! Walk through quaint little villages and take in the sights, sounds and smells of the local environment. Admire the beautiful 360 view of the whole of South Cebu once you reach the peak.
